

Oil and Gas

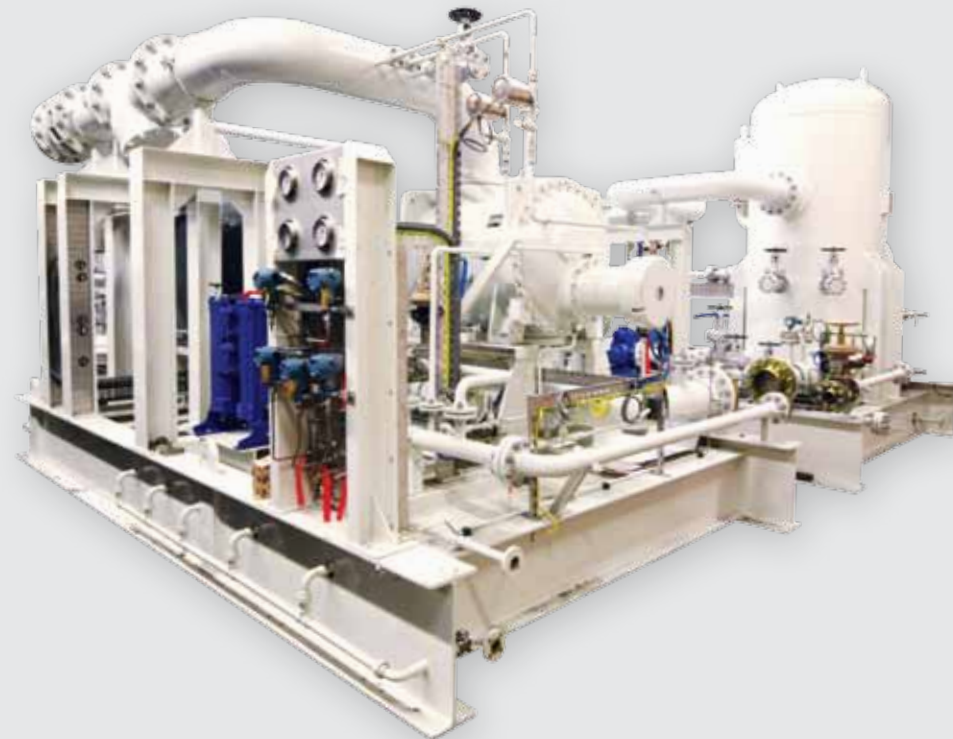

ses

With over 50 years of experience SES International by is a specialist in compressor packages for the refrigeration, petrochemical and oil and gas industries. We supply high quality, tailor-made compressor packages backed-up by reliable service.

CLIENT SPECIFIC SOLUTIONS

With a proven track record, SES has the right technologies to achieve customers' business goals. Delivering the most cost-effective and efficient design for your compressor package: from basic "stand-alone" unit to full turnkey compressor stations with all its necessary secondary equipment as scrubbers, heat exchangers and control units comprising all customers specifications. Working closely with our customers, SES provides EPC and project management resources to execute safe, reliable compressor packages that are easy to operate and maintain. All within the defined project schedules and budgets.

compressor packages
