

# Refrigeration

**ses**

With over 50 years of experience SES international bv specializes in compressor packages for the refrigeration, petrochemical and oil and gas industries. We supply high quality tailor-made compressor packages backed-up by reliable service.

# compressor packages

## CLIENT SPECIFIC SOLUTIONS

We focus on delivering total solutions based on your requirements, from basic compressor packages to full turnkey chillers, from SES standard to client's specific design. Every single unit is designed to customer demands and needs which results in the best COP's possible. With rising global energy costs and the need for more sustainable energy consumption as motivation, SES International bv have designed a high efficiency oil separation system. This ensures lowest possible oil carry-over downstream of the compressor package. With this sophisticated design we are trying to eliminate negative environmental impacts by reducing energy consumption.

## KEY FEATURES

- Howden Compressors Ltd. approved OEM packager for over 50 years
- Packages cover a range from 300 up to 14.000m<sup>3</sup>/hr
- Easy maintenance due to sophisticated design
- Large stock with genuine Howden spars covering all models
- High efficient 4-stage oil separation system
- Vertical and horizontal oil separator possible
- Oversized, rigid, vibration, free base frame
- Machined baseframe for easy alignment of compressor and motor
- Separate stainless steel lines for manifold mounted pressure transmitters
- Extensive plc control systems to client specifications or standard electro mechanical basic safeguarding

#### COMPANY

Since the late 50's SES International bv has been a global player in manufacturing compressor and chiller packages for the refrigeration, petrochemical and oil and gas industry.

SES International bv is ISO9001-2008 certified and has its own service department for total maintenance for and the supply of spare parts. Since 1999 the company has been part of the Rosscor group.
